ABOUT ME

Recent BS in Information Technology graduate, majoring in Software Development, with hands-on experience in web development and both software and hardware troubleshooting through freelance projects. Known for being a quick learner with a strong problem-solving mindset, I'm eager to continue growing in the tech industry. I bring a passion for building efficient, user-friendly solutions and am ready to contribute to a dynamic team environment while expanding my skills in real-world development.

EDUCATION

2021-2025
Marinduque State University

Bachelor of Science in Information Technology
Completed a program focused on software development, web applications, and database systems. Developed practical skills in programming languages including Java, Python, and JavaScript. Experienced in collaborative software projects using version control (Git) and agile development practices.

2019-2021
St. Mary's College of Marinduque

Information and Computing Sciences
Focused on practical skills including hardware troubleshooting and network cable installation and maintenance, building a strong foundation in IT support and networking.

EXPERIENCE

2022 – Present
Self-employed

Freelance Technician
Provide technical support and repair services for computer hardware and software. Manage installation and configuration of IT equipment and troubleshoot client issues to ensure smooth operations.

2022 – Present
Self-employed

Freelance Web Designer
Design and develop websites using HTML, CSS, and JavaScript. Collaborate with clients to understand project requirements and deliver customized solutions. Maintain and update websites to improve usability and performance.

2025
Department of Environment and Natural Resources (DENR) PENRO Marinduque

IT Support Intern (OJT)
Provided technical support and troubleshooting for hardware and software issues. Assisted staff with network connectivity and system maintenance. Supported database updates and digital file management, and helped enforce IT security policies to improve system efficiency. Conducted fiber and network connection wiring fieldwork, ensuring proper installation and reliable performance of IT infrastructure.

SKILLS

- Web Development
- IT Hardware and Software Troubleshooting
- Fiber Wiring
- JavaScript
- HTML
- CSS
- UI/UX Design
- Python
